Dear Ms. Goostray,

After Edward Jay E]stein published his book on Lee Harvey Oswald, Legend, he deposited his papers with your collection.

He had the records of the inquiry after Oswald defected, including interviews with Marines who knew Oswald, and his own and his assistants' interviews with such Marines.

I would very much appreciate copies of this part only of the Epstein deposit.

Are these materials available?

If you have not heard, they are more topical now that another book on Oswald has appeared, Oswald's Games, by Jean Davison.

Ultimately I might want to use these records in my own writing, so if there are any restrictions I would appreciate knowing about them.

Thank you very much for any assistance you may offer.

Sincerely,

Harold Weisberg
